MESSAGE

It gives me immense pleasure to know that the Department of Botany, Goalpara College is going to organize their first Alumni meet on 7th March, 2021.

I am happy to learn that the organizing committee has decided to publish a Souvenir entitled "Prakritika" to commemorate this occasion.

I wish the programme grand success and hope that the proposed Souvenir will be an asset of Department of Botany, Goalpara College.

Date : 02.03.2021

Message from Principal

Goalpara College believes the alumnus to be the flame keeper of the College. Hence, it brings great pleasure to me to know about the first alumni meet of Department of Botany to be celebrated on 7th March 2021.

The need of the hour is to keep the students motivated and pushing them towards their goals. I am very happy to learn that in order to attain the same the family members of the Founder Head of Botany Department has arranged for a scholarship for the meritorious students of the Department in his name, Prof. Kula Bhusan Das. I believe this will surely help ignite the young minds of the Department.

Also the Organizing committee has taken a remarkable effort in bringing together and treasuring the moments lived in the form of the Souvenir name Prakritika. I am very delighted about the same and looking towards successful commencement of the programme.

With best wishes.

Dr. Subhash Barman
Principal
Goalpara College

Message from General Secretary
Alumni Meet, Department of Botany, Goalpara College.

I am deeply humbled to have been given the responsibility as General Secretary of Botany Department Alumni Association. The Botany Department of Goalpara College is going to organize it's first alumni meet to be held on 7th March, 2021 and on that occasion the department will release a souvenir. I thank the faculty members of botany department for their decision of conducting this alumni meet and all the suggestions, guidance and constant support. I also thank the committee members of Alumni Association for all the aid provided and their constant support in the preparation of this great meet.

I fully embrace the opportunity of being the secretary of Botany Department alumni association and I am genuinely excited for the reunion of the alumnus.

There are many ways for alumni to contribute and give back to our Alma Mater, like visit to campus during weekends and volunteer to offer expertise, knowledge and share rich experiences with the faculty and students.

Thanking You.

Bikash Barman
General Secretary
1st Alumni Meet

My Memory of Goalpara College

M Ahmed
Ex-Faculty

“There was a time when society needed to ornament itself with polished behaviour and manners, but those were tension- free days .When one could afford to live one’s life in a leisurely way. Now with the sharp tooth of competitions at every breast, it is imperative that intellectuality, professionalism and specialization be assimilated in a very liberal dose. However, one must never think that the age of good manners and good habits has gone forever.”

On 28th August 1972, I had joined as a lecturer in the department of Botany at Goalpara College. I was the second man in the department and the first man was Sri Kulabhusan Das. That time the Principal of Goalpara College was Dr. Mahendra Bora.

On 1972, the Heads of the Department of Science faculty were: In Botany- Sir Kulabhusan Das. Chemistry- Sir- Debnath, Physics- Dr. Kamaleshwar Goswamy and Zoology- Sir Gobinda Kalita respectively. In 1997, I took charge as a Head of the Department of Botany after retirement of Sri Kulabbushan Das.

The Higher Secondary classes of Science were held at the Arts block due to lack of Accomodation at Science block. At that time the infrastructure of the College was not up to the required level. Gradually the College grew by the financial help from some donors of Goalpara town, M.L.A. and M.P.S. area development fund, timber auction from the forest offices of Goalpara, Krishnai and Lakhipur and U.G.C. Development grant.

The entrance roads of Goalpara College from Agia Road on both sides (Southern and Northern side) was originally sand- gravel. In rainy season the teacher, students and office staff were facing difficulty, to reach the College. The roads were developed by the P.W.D. at the time of All Assam Science Society Silver Jubilee Celebration.

The Department of Botany had Higher Secondary, Degree -pass and Major courses with well equiped tissue Culture laboratory.

Every body knows that the Goalpara College was established in 1955 and is a very old College in the Goalpara district. This College has given education to the students of Goalpara districts as well as students out side the district and also to students from the neighbouring Garo Hills of Meghalaya.

The college can definitely give some help to the people of Goalpara district. The Department of Botany, Chemistry and Zoology may given guidelines, mainly on soil testing report in the field of Agriculture and Horticulture, presence of Arsenic identification in the drinking water and turbidity of pond water.

My Journey in Goalpara College

Dr. Namita Nath
Ex Faculty

It is my privilege to pen down a few sentences here and to share some of my experiences at glorious Goalpara College, Goalpara. To begin with, I joined in the institution in the year 1996 and served for around 19 years. I got to learn a lot here about teaching-learning, especially from my senior colleagues who were very much helpful, cooperative and ofcourse encouraging. The working environment is excellent here for which I could build up my teaching career in a way for which I am able to stand in my present position. The location- position, the society, and the surrounding environment, everything is so much supportive towards working in a positive way. I just cannot forget the lustrous green canopies over the black roads that always applied a soothing balm whenever my mind was troubled. All these along with my funny and active colleagues- friends (like Prof. Jyotish Das, Prof. Dhruba Das, Prof. Loni Baruah, Prof. Rupjyoti Das and many more) are just inexpressible.

As a significant institution of Higher education, the college is having a lot of opportunities along with which definitely it has heavy responsibilities to generate resourceful, able and skilled human resource to serve the nation. Since its establishment, the College is doing a lot in the academic field to spread knowledge in the society covering specially the western part of Assam and the state as a whole.

All my respected senior teachers like Prof. M. Ahmed, Prof. B. Medhi, Prof. Ramala Baishya as well as all my friends from the Dept. Of Botany- Prof. S. Rao, Prof. D. Barman, Prof. D. Baruah, and Prof. Doley, all were so much supportive and hard working from whom I got to know, learn and generate idea to approach towards Research and other academic activities. So I will take the opportunity to offer my heartfelt gratefulness to you all- Sirs and Madams and all my colleagues, friends who were there with me. I would like to offer my sincere thanks to Dr. Kasem Ali Ahmed, the then honourable Principal of Goalpara College for his encouraging words at every step of my service period. I am also thankful to the present Principal Dr. Subhash Barman for giving me the opportunity to write up here. Let us carry the torch of education further and continue igniting the desire to create a civil society for the upcoming generations.

Thank you all.

Joyotu Goalpara College!

গোৱালপাৰা কলেজৰ বিষয়ে একলম

ড° ভৰজিৎ দলে

গোৱালপাৰা মহাবিদ্যালয় নামনি অসমৰ এখন অগ্ৰগণী শিক্ষানুষ্ঠান। ইয়াৰ ভৌগোলিক অৱস্থান অসমৰ পশ্চিম অংশত হলুকান্দা পাহাৰ আৰু ব্ৰহ্মপুত্ৰ নদীৰ পাৰত। খুব কম সময়ৰ বাবে মহাবিদ্যালয়খনত কাম কৰিবলৈ সুযোগ পাইছিলো যদিও তাৰপৰা পোৱা অভিজ্ঞতাইনি সদায় স্মৰণীয় হৈ ৰ'ব। গোৱালপাৰা মহাবিদ্যালয়ত প্ৰথমবাৰৰ বাবে মই অসমত চৰকাৰী চাকৰিৰ বাবে আবেদন কৰিছিলো আৰু সাক্ষাৎকাৰত বহিছিলো। ভগৱানৰ আশীৰ্বাদত এই প্ৰথম সাক্ষাৎকাৰতে মনোনীত হৈ সহকাৰী অধ্যাপক হিচাপে 2014 চনৰ 10 জুন তাৰিখে যোগদান কৰো। মহাবিদ্যালয়খনত কৰ্মজীৱন কালত সকলো ছাত্ৰ-ছাত্ৰী বিশেষকৈ উদ্ভিদ বিজ্ঞান বিভাগৰ ছাত্ৰ-ছাত্ৰীৰ পৰা যথেষ্ট মৰম আৰু সন্মান পাইছিলো। সদায় ছাত্ৰ-ছাত্ৰী সকলক বিষয় শিক্ষাৰ উপৰিও নৈতিক শিক্ষা আৰু লগতে বিভিন্ন প্ৰতিযোগিতামূলক পৰীক্ষাত কেনেদৰে অৱতীৰ্ণ হ'ব পাৰি তাৰো আভাস দিবৰ চেষ্টা কৰিছিলো। এতিয়া ছাত্ৰ-ছাত্ৰীসকলে মোৰ লগত ফোনত অথবা সামাজিক মাধ্যমত যোগাযোগ কৰে আৰু সুবিধা অনুযায়ী বিভিন্ন দিহা-পৰামৰ্শ দিবলৈ চেষ্টা কৰো। আমাৰ উদ্ভিদ বিজ্ঞান বিভাগত তেতিয়া মুঠ চাৰিগৰাকী শিক্ষক - Dr. S. Rao Sir, Dr. D. Barman, Dulal Da আৰু মই নিজে। গুৱাহাটী বিশ্ববিদ্যালয়ত বৰ্তমান কৰ্মৰত Dr. Namita Nath বাইদেউক বহুত কম সময় পাইছিলো। গোটেই কেইগৰাকী ব্যক্তি বহুত সক্ৰিয়। সকলোৱে যিকোনো কাম Team work হিচাপে কৰে। সকলো শিক্ষকৰ এটা ইউনিক নেচাৰ আছিল যে কেতিয়াও ল'ৰা-ছোৱালীৰ শ্ৰেণী কোঠাৰ পাঠদান ব্যাহত হ'ব নিদিয়। কটন মতে যাৰে পিৰিয়ড হওক অলপ বিশেষ কাৰণত অগা-পিছ হ'লেও যিগৰাকী শিক্ষক Free থাকে সেইগৰাকী শিক্ষকেই শ্ৰেণীকোঠাত সোমাই পাঠদান কৰে। এই একতা সদায় মনত থাকিব। HoD, Dr. RO Sir বহুত শান্ত আৰু Discipline হয়। ছাৰে যিকোনো সময়তে Support দিছিল। ছাত্ৰ-ছাত্ৰী সকলেও যি দায়িত্ব দিয়ে। এই দায়িত্ব মূৰ পাতি লৈ সামূহিকভাৱে কাম কৰিছিল। They are also very active & energetic। মুঠতে ছাত্ৰ-ছাত্ৰী আৰু শিক্ষকৰ মাজৰ যি মধুৰ সম্পৰ্ক এইটো ছাগে অন্য মহাবিদ্যালয়ৰ তুলনাত কোনো গুণে কম নহয়। আমাৰ লগত অংশকালীন শিক্ষক হিচাপে Dr. S. Deka আৰু Bikram Barman। তেওঁলোকৰ লগতো বহুত ভাল সম্পৰ্ক আছিল।

মোৰ বোধেৰে Goalpara College Botany Deptt is the best Department of the college from allside. All teachers are dynamic and ready to take any responsibility assigned. All are ready to do something good for the college.

এই কথা মোৰ মনত সদায় ভাল লাগি থাকে যে প্ৰথমবাৰৰ বাবে Department ৰ সন্মুখত Flower Garden ছাত্ৰ-ছাত্ৰীৰ সহযোগত Develop কৰিছিলো। এতিয়াও ফুলৰ বাগিছাখনৰ কথা সুবিধা পালে খবৰ লও আৰু বহুত লিখিব লগা আছিল। কিন্তু সময়ৰ নাটনিত সকলো লিখিব পৰা নগ'ল।

সদৌ শেষত গোৱালপাৰা মহাবিদ্যালয়ৰ সৰ্বাংগীন উন্নতি কামনা কৰি মোৰ লিখা শেষ কৰিলো।

My Proud Days

Dr. Azizur Rahman
1991 -1994

I, Dr. Azizur Rahman being a Botany Honours student of the first batch, is so proud and grateful to be a part of this college and thankful to the Principal and Governing Body Members who had shown keen interest to start the Honours Course in Botany at Goalpara College.

The Botany department is planning to organize the Alumni Meet on 7th March 2021. I would like to thank, on behalf of all the alumni, the Department of Botany for hosting this event which is so close to our hearts.

College life was the best journey of my life. Whenever I remember my college days, I get tears in my eyes. These three years were like three days for me which completed very fast. But, during these days many memories have been created. The environment of Goalpara College was very nice, just like a family. The teachers were like backbone for me, the friends were the reason of my smile and the juniors were like younger siblings. Everyone recognized my talent with open arms always. I am and will always be thankful to Moon sir (Dr. M. Ahmed) for making me a person I am today. He always encouraged me and Sadhan to publish research papers, for that Sadhan got the job in Birbal Sahni Institute of Palaeobotany, Lucknow and presently, I have also published 52 research papers in different national and international research journals, 6 books and many articles in souvenirs and magazines.

My College days are unforgettable and in fact, those days were the most happiest and fruitful days in my life. Being a "*Botanian*" make me feel proud. My experience in Goalpara College was just amazing. I got infinite love and lessons from Dr. Someswar Rao Sir and he made me work hard for the way to success. Sometimes I and Amil went to Rao sir's house by Amil's British bicycle to learn plant breeding theories.

I will always remember and thankful to Bhakti Medhi sir for arranging excursions and field visits to Nangal, Bibra of Meghalaya for specimen collection and Pandu College, Maligaon, Guwahati for the final practical examination.

I got lots of love and support, valuable suggestions from Dr. Ramala Baishya and Dr. Namita Nath Ma'am to do my Ph. D. work under Gauhati University and currently guiding PhD scholars under University of Science and Technology Meghalaya (USTM).

The department provided me a great balance of academics and extracurricular activities. I will always remember Gokul Ch Dev Goswami sir for his great personality and high thinking, though he is no more with us now. He had given me a chance to deliver lectures as Guest lecturer on "propagation by using modern technology" in class, 2001-2002 after completing my master's degree in Sericulture Technology from University of Mysore, and he had also encouraged me to write an article entitled "*Boigyanic Potdhotire Pat Polu Palon*" in an Assamese Magazine "*Anannaya*", June -2001, page 38-40.

I am proud to be a BOTANIAN OF GOALPARA COLLEGE! Thank you so much to all alumni, Sir & Ma'am.

Walking My Memory Lane

Dr. Sabebaro Namo Das
M.Sc, M.Phil, B.Ed, Ph.D.
1996 -1999

At the very outset I would like to offer my heartfelt thanks to the Botany Department of Goalpara College and the organizing committee for arranging the Alumni meet. Today I feel proud that I was an Honours student of the said department from 1996-1999. At that time the respected teachers in the department were Dr. M. Ahmed (HoD), Mr. B. Medhi, Dr. R.B.Sarma, Dr. U. Dutta, Dr. S. Rao, Dr. N. Nath, Mr. G. Devo Goswami and Shri Mani Sharma and Shri Sasho da served as office bearers who helped us every time during the practical classes.

How can I explain my past pleasure during the study time which was 25 years ago today? Yet I am going to share just some feelings moments of when I was a student in the B.Sc. second year (Part-I). During that time we got a chance to visit the Botanical excursion to Shillong (Meghalaya) and Cherapunjee. The excursion was guided by the teachers in charge (Dr.M.Ahmed Sir(HoD), Mr.B.Medhi Sir and Dr.U.Dutta Sir). Where we enjoyed and gained lots of knowledge which I will never forget. Likewise in part II i.e. B.Sc. last year we got another second chance for a local excursion to Pancharatna (Goalpara), that was guided by the teacher in charge Dr.S.Rao Sir (HoD at present) where all the teachers accompanied with us.

The above cited botanical excursions have been unforgettable in my life as we observed many plant species that were identified our teachers, besides it made a free-frank relationship with our Sir/Madam, etc. I always took a leading role for arranging Bishokarma puja in the department. The department started honour course in 1991 since then none was able to get First class till 1999. Hence that year was a challenging for me. All the teachers from the department guided positively and encourages me every time. As a result of their constant support and guidance from the department I got First class in B.Sc. final exam (1999) with botany major for the first time in its history. I am highly appreciated when then HoD Dr. M. Ahmed Sir introduced me with then principal Dr. Suren Sarma Sir and telling him regarding my B.Sc. result. Accordingly HoD of the department Dr.Ahmed Sir advised me to take admission in master degree course and as per his suggestion I took admission in M.Sc. in the Botany Department at Gauhati University and successfully completed the same. For succeeding in my life, I'm deeply indebted to all my respected teacher of the department. Once again thank to all the faculty members of the past and those working at present in the department. I wish all the best and extend my warm regards to my Department of Goalpara College, Goalpara.

LONG LIVE BOTANY DEPARMENT
LONG LIVE GOALPARA COLLEGE

স্মৃতি ৰোমন্থন

ময়নুল হক
(২০১৩-২০১৬)

১৯৫৫ চনৰ ৮ আগষ্টত প্ৰতিষ্ঠা লাভ কৰা গোৱালপাৰা মহাবিদ্যালয়খন নামনি অসমৰ এখন অগ্ৰণী শিক্ষানুষ্ঠান। তিনিটা বছৰ মহাবিদ্যালয় খনৰ ছত্ৰ-ছাত্ৰ আছিলো যদিও মহাবিদ্যালয়খনে দি গ'ল বহু অভিজ্ঞতা, যি সদায় চিৰ স্মৰণীয় হৈ থাকিব।

২০১৩ চনত উদ্ভিদ বিজ্ঞান বিভাগৰ এজন ছাত্ৰ হিচাপে নাম ভৰ্তি কৰিছিলো আৰু শিক্ষক হিচাপে লগ পাইছিলো Dr. S. Rao Sir (HoD), Dr. D. Barman, Dr. Namita Nath ক। বিভাগটোত দুজনমান শিক্ষকৰ অভাৱ আছিল। এদিন ৰাও ছাৰে কলে যে তোমালোকৰ দুজন নতুন শিক্ষক আহিব। আমিও আগ্ৰহেৰে কেতিয়া আহিব বাট চাই আছিলোঁ।

২০১৪ চনৰ আগষ্ট মাহৰ কোনোবা এটা দিনত আমি Dr. Dulal Chandra Baruah আৰু Dr. Bhabajit Doley ছাৰক নতুন শিক্ষক হিচাপে লগ পাইছিলো। এই দুজন শিক্ষকক লৈ উদ্ভিদ বিজ্ঞান বিভাগে পূৰ্ণতা পোৱা যেন অনুভৱ হৈছিল। একেটা বছৰতে মই ছাত্ৰ একতা সভাৰ উপ-সভাপতি হিচাপে কাম কৰাৰ সুযোগ পাইছিলোঁ। মহাবিদ্যালয় সপ্তাহত প্ৰতিটো প্ৰতিযোগীতাত আমাৰ বিভাগটোক অংশ গ্ৰহণ কৰি প্ৰাইজ বুটলি আনিবলৈ ছাত্ৰ-ছাত্ৰী সকলৰ লগত আলোচনা কৰি বিভিন্ন কৌশল অৱলম্বন কৰিছিল আৰু আটাইকে যথেষ্ট পৰিমাণে উৎসাহ যোগাইছিল।

Dr. B. Doley ছাৰ এজন প্ৰগতিশীল যুৱ শিক্ষক। তেখেতে চাইকেল চলাই সদায় সময়মতে উপস্থিত হয়। শ্ৰেণী শিক্ষাৰ উপৰিও সময় উলিয়াই আমাক ভিন্ন ভিন্ন জ্ঞানৰ কথাবোৰ, গুৰুত্বপূৰ্ণ বিভিন্ন অভিজ্ঞতা বৰ্ণনা কৰিছিল। এদিনাখন ছাৰে মোক মাতি নি কলে ময়নুল, আমাৰ বিভাগৰ সন্মুখত ভাগত থকা ঠাইখিনিত ফুলনি বাগিছা এখন গঢ়িব পাৰো নেকি? মই সময়ভৰ দিয়াত ছাৰে বিভাগৰ সকলো ছাৰ আৰু ছাত্ৰ-ছাত্ৰীৰ লগত আলোচনা কৰিলে আৰু মোক কলে যে তুমি অধ্যক্ষ মহোদয়ৰ লগত আলোচনা কৰি জেউৰাৰ ব্যৱস্থা কৰিব পাৰিবানে? মই হাঁহি-হাঁহি কৈছিলো ছাৰ ভাল কামত ভগৱানৰো সন্মতি থাকে, নিশ্চয় পাৰিম। কথামতে কাম, দিন-বাৰ ঠিক হ'ল, কোৰ পাচি যোগাৰ হ'ল। প্ৰথমে কোৰডাল হাতত লৈ ড° দলে ছাৰ কামত ধৰিলে, তেতিয়া গোটেইখিনি ছাত্ৰ-ছাত্ৰী আৰু ৰৈ থাকিব নোৱাৰিলে। দা-কাঁচি লৈ আটাইয়ে কামত নামি পৰিলো। আমাক দেখি ড° আনজাম হুছেইন বৰভূঞা ছাৰে প্ৰাণী বিজ্ঞান বিভাগৰ ছাত্ৰ-ছাত্ৰীক লগত লৈ আমাক কামত সংগ দিলে। আজি পুখুৰীৰ পাৰত থকা সৰু বাগিছাখনে সৌন্দৰ্য্যৰ লগতে অক্সিজেনৰ যোগান ধৰিছে। এটা কথা মনত পৰে, গছ-পুলিখিনি জীয়াই তুলিবৰ বাবে সন্ধিয়া সন্ধিয়া ল'ৰা হোষ্টলৰ পৰা বাল্টি আৰু মগ লৈ পানী দিয়াৰ ব্যৱস্থা কৰিছিলো। অফপিয়ৰিডত আমাৰ বিভাগৰ কোনোবাই যদি কিবা খেলত বা প্ৰতিযোগীতাত বিজয়ী হয়, তেন্তে শিক্ষক সকলৰ মনত এক অনাবিল আনন্দৰ হাঁহি দেখা পাইছিলোঁ। এনে লাগিছিল যেন সন্তানৰ বিজয়ত দেউতাকৰ পাপ্তিৰ-হাঁহি।

Dr. D. Barman, Dr. S. Deka, Bikram Barman ছাৰৰ সৈতে Excursion উপলক্ষে শ্বিলংলৈ গৈছিলো, তেতিয়া আমি দ্বিতীয় বৰ্ষৰ ছাত্ৰ আছিলোঁ। আটাইকেইজন শিক্ষকে বন্ধুৰ নিচিনা ব্যৱহাৰ কৰিছিল

আৰু আমাক নিজ সন্তানৰ দৰেই গাইড কৰিছিল।

সেই সময়ত আমাৰ মহাবিদ্যালয়ত বিভাগবোৰত নতুনকৈ প্ৰজেক্টৰৰ ব্যৱস্থা কৰিছে আৰু দুলাল ছাৰে সদায় প্ৰজেক্টৰটোলৈ শ্ৰেণীত আহে আৰু প্ৰজেক্টৰৰ সহায়ত বিতংভাৱে প্ৰতিটো বিষয় বুজায় যায়। কিন্তু আমাৰ Syllabus বৰ বেছি আগ নাবাঢ়ে কাৰণ, কোনোবা এজন ছাত্ৰই নুবুজাকৈ থাকিলে ছাৰে পিছৰ বিষয়টোলৈ আগনাবাঢ়ে। মোৰ এটা কথা মনত পৰে যে, ছাৰে Protein Synthesis বুজাওঁতে এমাহতকৈ বেছি সময় লৈছিল।

২০১৫ চনৰ কথা, আমি তেতিয়া তৃতীয় বৰ্ষৰ ছাত্ৰ। Dr. Dulal ছাৰ আৰু Dr. Doley ছাৰৰ লগত ছিকিম, দাৰ্জিলিংলৈ গলো Excursion উপলক্ষে। দুইজন ছাৰৰ পৰা প্ৰথমে মেনেজমেন্ট বা টাইম মেনেজমেন্ট কেনেকৈ কৰিব লাগে শিকিব পাৰিছিলোঁ। Dr. Namita Nath মেমে Taxonomy ৰ Class কৰোতে, কিবা গছৰ পাত বা ফুল লৈ আহে আৰু গছৰ টান, টান বৈজ্ঞানিক নামবোৰ কৈ যায়, যিবোৰ আমি উচ্চাৰণেই কৰিব নোৱাৰো। কেতিয়াবা কয় অমুক নামৰ উদ্ভিদটো অমুক ঠাইত দেখা পাব। আমি সকলোৱে আচৰিত হৈছিলো। পিছত আমি লক্ষ্য কৰিছিলো যে মেমে যেতিয়া খোজকাঢ়ে, ৰাস্তাৰ ফালে লক্ষ্য কৰাতকৈ কাষৰ গছ-গছনিবোৰলৈহে বেছি মনোযোগেৰে চায়।

ড° ৰাও ছাৰক শিক্ষকৰ উপৰিও মহাবিদ্যালয় সপ্তাহত Indor Games Competition Incharge হিচাপে ওচৰৰ পৰা পাইছিলো। ছাৰে সদায় সময়ৰ আগত আহি আমাৰ কাৰণে অপেক্ষা কৰে। অতি শান্ত স্বভাৱৰ কম কথাকোৱা শিক্ষকজনৰ বিষয়ে তেতিয়াৰ অধ্যক্ষ ড° কাছিম আলী আহমেদ ছাৰে কৈছিল 'ড° ৰাওক যদি কিবা কামৰ দায়িত্ব দিয়া হয় সেয়া সময়তে সম্পন্ন কৰিবই, মোৰ চিন্তা কৰিবলগীয়া একো নাথাকে।'

ষষ্ঠ ষান্মাষিকত পঢ়ি থাকোতে Dr. D. Barman ছাৰে আমি কেইজনমানক মাতি নি কলে "তোমালোকে কেইদিনমান পিছত B.Sc. পাছ কৰিবা, Certificate পাবা Graduate বুলি।"

তোমালোকৰ ব্যৱহাৰ আৰু কথাবতৰাৰ মাজেৰে যদি নিজকে Graduate দেখুৱাব নোৱাৰা তেন্তে Certificate ৰ একো মূল্য নাথাকিব।

IASST, Guwahati ত Poster Presentation প্ৰতিযোগীতা আছিল আৰু Dr. Dulal ছাৰে আমাক কলে যে আমি প্ৰতিযোগীতাত অংশ ল'ব লাগে। সেই উদ্দেশ্যে ছাৰৰ নেতৃত্বত বন্ধুবৰ্গৰ লগত গোৱালপাৰা জিলাৰ কেইবাখন ৰাভা গাওঁত Survey কৰিলো আৰু এখন Poster প্ৰস্তুত কৰি উলিয়ালো লগতে প্ৰতিযোগীতাত প্ৰথম পুৰস্কাৰ লাভ কৰিলো। দুলাল ছাৰ বহুত আনন্দিত হৈছিল। ছাৰৰ চকুত সপোন আছে, উদ্ভিদ বিজ্ঞান বিভাগত স্নাতকোত্তৰ পাঠ্যক্ৰম আৰম্ভ কৰাৰ। সেই সপোন পূৰ্ণ হওঁক। মহাবিদ্যালয় এৰা পাঁচ বছৰ হ'ল কিন্তু আটাইকেইজন শিক্ষকৰ লগত এতিয়াও মধুৰ সম্পৰ্ক অটুট আছে। যিকোনো সমস্যাতে পৰিলে সমাধান বিচাৰি ফোন এটা কৰিলে কেতিয়াও অৱহেলা নকৰে। সঠিক পৰামৰ্শ আৰু উৎসাহ উদ্দীপনা দিয়ে। গোৱালপাৰা মহাবিদ্যালয়ৰ ভিতৰত উদ্ভিদ বিজ্ঞান বিভাগটোক শ্ৰেষ্ঠ বিভাগ হিচাপে গঢ়ি তুলিবলৈ শিক্ষক সকলে আপ্ৰাণ চেপ্টা আৰু কষ্ট কৰি আহিছে আৰু বহু ক্ষেত্ৰত সফল হৈছে।

Deepak Rabha, Soriful Islam Sarkar, Injamul Hussain, Nilima Khatun এওঁলোকে কলেজীয়া জীৱনত বিভিন্ন ধৰণে সহায় সহযোগীতা আগবঢ়ালে। আটাইলৈ ধন্যবাদ জ্ঞাপন কৰিলোঁ।

শেষত মহাবিদ্যালয়খনৰ লগতে উদ্ভিদবিজ্ঞান বিভাগৰ সৰ্বাংগীন উন্নতি কামনা কৰি মোৰ লিখা সামৰিলোঁ।

এজাক সপোনৰ যাত্ৰা
(An excursion trip to Sikkim)

Shariful Islam Sarkar
Bot dept., Goalpara College)
2013-2016 Batch)

এয়া শুভ কোমল বৰফৰ স্পৰ্শৰ এক যাত্ৰাৰ অন্ত পৰিল,
এয়া মৰম-স্নেহ আৰু অভিমানৰে ভৰা এক যাত্ৰা,
এজাক সপোনৰ যাত্ৰা।
এক বিৰল সংগীতৰ মুৰ্ছনা তুলি আগবাঢ়িছিলোঁ,
উভতিলোঁ এবুকু মৰম আৰু কাহানিও নিঃশেষ নোহোৱা স্মৃতি লৈ,
সিঁচি থৈ উভতিলোঁ স্মৃতিৰ বীজ চিকিমৰ
অলিয়ে-গলিয়ে।
হৃদয়ৰ কোণত ফুলিছিল গোলাপ আৰু হাছনাহানা
অন্তৰাত্মাৰ পখিলাজাক ফুলৰ সুগন্ধিত
জাহ যাব খুজিছিল উৰি উৰি,
এয়া আছিল এজাক সপোনৰ যাত্ৰা।
ছাৰহঁতৰ লগত গঢ়ি উঠা পৱিত্ৰ বন্ধুত্বৰ
এনাজৰীডালে অন্তৰত কবিতা ৰচিছিল,
ৰাতিৰ নিঃশব্দতা ভেদি এজাক হাঁহিৰ শব্দই
কঁপাই তুলিছিল Tanishqu Hotel।
গঢ়ি উঠিছিল আনন্দ উৎসৱৰ স্মৃতিবোৰ
চীনৰ প্ৰাচীৰৰ দৰে।
বাস্তৱায়িত হোৱা মুহূৰ্তবোৰ
সোণালী স্মৃতি হৈ ৰ'ল।
ব্যস্ত জীৱন যাত্ৰাত মাজে মাজে নষ্টালজিক
কৰাৰ প্ৰতিশ্ৰুতি দিছিল সপোনৰ স্মৃতিবোৰে
এয়া আছিল মৰম-স্নেহেৰে ভৰা এটি যাত্ৰা,
এটি চিৰ সেউজীয়া যাত্ৰা,
এজাক সপোনৰ যাত্ৰা।

Indulge into reminiscence

Saista Afrin
2017-2017

As I'm writing this down with multiple butterflies in my stomach. I call my graduation days to be the best days but not so casual or easy one yet. As I remember those days it was full of surprises, ups & downs, tears and laughs, pain and glory and what's not.

My astounding teachers from the department taught me to grow and dream big. The best thing about them was even though I almost got to the point thinking I won't be able to reach their level of expectation but they kept lifting me up and guess what? I did reach their level of expectation maybe not at the very beginning but not least either. How grateful and thankful I am always to them for supporting us not just as a guide but as a well wisher in every possible way.

As I recall my graduation days as it brought me different friends from different places along with evergreen memories. Some gone by as days passed but few remains intact. It amazes me the way we have come this far. Growing up can maybe interesting but it can never be as interesting as college days. Because college days are made up of little things, starting from introducing yourself uncomfortably to the whole senior community and teachers to getting closer to all of them. It's like few moments ago we all were strangers but now we know so much more about each other.

College days can literally mean so many things. Sometimes it can be about being ambitious and compete. Sometimes It's about those small field visits and picnics and getting to know more about each other. It can be about dancing in the bus throughout the trip and singing with teachers etc. Those days include extent number of events and moments and words can hardly play a role to express ones entire journey but can only give a glimpse.

To sum up, three years of bachelor graduation from my Botany Dept. of Goalpara College is like box filled with tons of moments as they became memories and we reminisce.

College days

Anand Bakshi
2014-2017

Goalpara College and the Department of Botany in particular have imparted the most important colours to my life. During my college life I have come across many circumstances that have dramatically changed every sphere of my life. Before being a part of the Botany department, I had neither any idea about higher education nor the confidence to pursue it. My belief system was so limited that I couldn't imagine academic life beyond graduation. Once I came in close contact with the great teachers of our department, things gradually started changing. When teachers started revealing their own stories, my belief system started to expand. By the end of my college life, all the perceptions of my life were completely changed.

During the 2nd semester, our department organized a workshop where Dr. Mojibur R. Khan, a scientist presented his outstanding knowledge and experiences. His presentation worked like a magic potion and everyone in the hall was almost hypnotized. It was the first time I came to know about research work and it ignited a spark in me.

Next we visited Institute of Advanced Studies in Science and Technology (IASST) Guwahati under the guidance of Dr. Dulal Ch. Baruah and Dr. D. Barman sir. There we got the opportunity to communicate with the Scholars, Scientists and Professors who explained different procedures involved in research work and the road map to be a part of such institutions. When I was inside the IASST campus, it felt like a different world which I could have never imagined. During the tour we also came to know how Dr. Dulal Ch. Baruah sir pursued his doctoral research from that very institution and that story was highly influencing.

Another special moment that helped me building my confidence level was the day of 4th semester result announcement. On that day, I went to the departmental office to meet the teachers; all of them have congratulated and encouraged me with their sweet words. When I was stepping out of the room, a heavy voice came to my ear and stopped me. It was Dr. Dulal Ch. Baruah sir who said, "Bakshi, I know you have the potential for higher studies. You just need to work a little harder." These two sentences from my role model has broken the all the boundaries of my belief and gave a boost to my confidence.

Moreover, the department kept organizing workshops and training programs time to time and gave us an opportunity to explore more even after completing college life. Through these programs the department has been facilitating the students with technical knowledge as well as great ideas from the great resource persons like Dr. Rajib Gogoi (Scientist-BSI), Dr. Rizwan Hussain (Biotechnologist), Dr. Mojibur R. Khan (Scientist) etc. I really feel proud to be a part of such an active department.

I was influenced by the Botany Family not only academically but also personally. Dr. S. Rao sir is a role model for sincerity and leadership while Dr. D. Barman sir teaches us simplicity and how to keep smiling. All the members of the department have played a vital role in my life and I am really thankful to all of you for making me whatever I am now. I offer my gratitude to all the teachers for their guidance, care and blessings. I am also thankful to all my dear friends for your support and all the moments we shared.

RELIVING MY COLLEGE DAYS

Jubaida Alom Ara
Batch 2015-18

Yes, we all know that college life is full of adventures, experiences, fun, memories and of course lessons. We believe that college life is the most golden phase of our life because these are the days we not only enjoy our life but also build our career and work for our passion for a bright future. We must say that one can turn their dreams into reality during college days.

My college life started from 3rd August, 2015 and ended on 29th May, 2018. I must say, those three years I spent in our college (Goalpara College) were just too amazing to be framed into words, three golden years which I am never going forget for sure. Honestly speaking, at the very beginning, I was literally afraid thinking of how my life would sail smoothly from then. But by my luck, I got wonderful and more vibrant companions, I must mention their names- Kusumita, Akash, Bikash, Asif, Chandramita, Sisir, Moklesur, Hasinul, Maruf, Mrinmoy, Trinayan, Lucky, Devlina, Niva, Susmita, Mou and many more the list is endless. And while talking about the teachers of our department, I must say, they treated us so friendly. They took care of us like our parents and gave much love and care throughout the days. They not only taught us the lessons from book but also taught life lessons. They made us stronger, serious, responsible and independent. They laughed with us, loved us and also scolded when needed. We will always be grateful towards them.

My college days with friends have been so epic that it's literally not possible to choose a single moment and point the best one out of it. Still few moments I would love to share in short like taking pictures almost every day, we captured each small and big moments together, dancing and singing or sometimes doing mimicry of friends, teachers and others, in classrooms, but of course during leisure. And yes especially the time spent at college canteen is full of funny memories. Again, the college trips and excursions to Shillong, IASST Ghy, Manas National Park were most memorable ones. Again, the birthday celebrations, making surprise plans, getting the cakes and gifts, outings both planned and unplanned ones, etc. – those were the golden days, I must mention.

Most of us after reaching college level, feel free and enjoy freedom of choices, but we forget that our future is determined at college, those who use the college times productively, they become successful in life. It is the time that makes us capable of making our own decisions and start fighting our own battle.

As I am writing this, I cant stop reliving all those moments once again, there were times we have laughed and cried together, we have seen each other at best and worst, we use to see each other everyday, now the fact that, we all are scattered over different places and hardly meet each other, or barely answer calls or messages which brings me emotionally down and revisiting those days helps me overcome my emotions. I wish our bond to remain alive ever after.

Journey of a student in Goalpara College

Chandramita Choudhury
Batch : 2015-18

Most memorable year of my life as a student of college from 2013 to 2018. Goalpara College is a very huge campus. It is also very beautiful. I entered into the college with my nervous face. No one was familiar to me but I was very much excited to know everyone. Then I attended my first class which was ongoing in room no. 65. There are so many people but I didn't know anyone of them. Then I sat alone at the corner side facing the wall. Then one girl came out and sat next to me, then one by one, I got to know all of my classmates. But there were some people which are very extraordinary. They were very different, crack and most important they were mental literally. Then I used to go and talk with them in the leisure time. We played dumb charades. Then I know them very well after some days passed. Then I used to sit with the group and that group was named later as Real *Mentalz* group. They are the real gems of my life. They always have supported me and helped me whenever I needed them. I enjoyed a lot with them, we did parties, bunked classes and many more. Days passed, but we couldn't realize that it was a matter of days that we all will get separated from each other because we all have to build our career. Then after the HS final results, it was time to say goodbye to each other. I said we will never break our friendship and we will be in touch with each other. Then a month passed by I decided to study B.Sc. at Goalpara College. I took Botany as my major subject. In that department there were five friendly teachers, sometimes they become strict and sometimes they inspire us and help build our confidence level. Sometimes they gave us parties also. Again coming back to my new friends some were familiar and some were unknown and eventually I came to know them along with their names. I always enjoy with them, full on *masti* mood in the class. Then came department freshmen social and I gave my first dance performance in my life. We also did cultural rally two times and got first prizes. We went for excursion to Shillong. We enjoyed a lot there, late night talks with friends. We played games and we disturbed others at the hotel. One man came and give complaint against us. He scolded us but then also we enjoyed a lot. As days went by our bond of friendship grew stronger. We were like one team, we did mass bunks. These were the happiest feeling and memories in my life. Memories are memories it never stops in one or two pages it goes on and on. But my college days were very beautiful and the greatest time of my life.

Learning and Reinforcement

Moklesur Rahman
Batch : 2015-18

Department of Botany, Goalpara College and its faculty members have tremendously affected every aspect of my life. Until I became a member of the Botany family, I didn't know the value of teacher- student relationship. During my school life I used to silently sit in the last bench without approaching any of my batchmates and teachers. This trait of my personality continued till the announcement of BSc 2nd semester result.

One Monday morning, my teacher **Dr. Dulal Ch. Baruah** suddenly came to our classroom and asked “**who is Moklesur?**.” I replied “sir its me.” After that sir started praising and encouraging me for securing the first position in our batch. It was not the first time I topped, but the way sir reacted was extraordinary for me and that one reaction left an ever lasting impression on my life. That day I realized the importance of teacher-student relationship and then I started approaching my teachers. When I started communicating with the great teachers of Botany department, it started transforming me into a socially active member of the greater Botany family. This process of transformation not only help me in my academic life but also in my personal or social life. It's the teachers (**Dr. Someswar Rao, Dr. Bhabajit Doley, Dr. Dharmeswar Barman, Dr. Dulal Ch. Baruah, Dr. Simanta Deka**) whose guidance, support, advice, encouragement and benevolent care has made me whatever I am today. I am really grateful to all the teaching, non-teaching staff and my dear friends for shaping my life.

Memories of My College Days

Eusufa Aktar
Batch- 2016-2019

Holding this pen over the paper, I have been nostalgic which pushes me into the dreamland of Goalpara College i.e. my college, where I had weaved endless memories, best experiences of my life. I know i can't express my journey, my every single moment of my college life. And this is the reason of why I am refraining mostly from mentioning all names and special ones in these very few words.

All I had known that Goalpara College has the excellent faculties. I entered my college on 28th June, 2016. I was alone, quite nervous, completely blind about the environment. I started roaming all around the college, with no friends. Gradually, I felt it as my home which started smiling at me, telling me I am for you and you can embrace me.

I dedicated myself as a student of Botany. Interactions with the most supportive teachers began. Attractions of teachers never stopped me from attending classes. Days passes by. I still remember that day when my first semester result declared, I was shivering, quite hopeless, as Abba was admitted into hospital. Suddenly, I got the result, I screamed and jumped. Abba and Bubu (elder sister) were shocked and then happy too. I secured highest point 9.3 from Goalpara College. Immediately I rang Dr. Dulal Baruah Sir and he was over glad and said, "ohh Borhiya.. congratulations" that voice is still reverberating. And I was so lucky and blessed enough that I could make them happy.

We went for excursions, picnic, field trip and I can't express how friendly the beloved teachers were. I miss Dr. Bhabajit Doley sir and Dr. Dharmeshwar Barman sir's friendly attitude and parenthood towards us. Even we danced together, played games, had unlimited fun. In this opportunity, my heart fills with gratitude to mention the name of Dr. Someswar Rao sir, HoD. of Botany department. Though he was a strict teacher, he was quite friendly whenever needed. I believed that strictness was worth required to run a department peacefully. I can't led down my pen without thanking some gems of my life, my friends I miss you all.

We faced so many ups and down. But having supportive teachers, seniors and juniors beside, made it smooth. Literally they helped us a lot.

One of my memorable day till now is 12th July, 2019. Dulal Sir called me and said, "Eusufa, Congratulations! Mithai khuaba... 3rd position paisa tumi Gauhati University, B.Sc t highest mark or babe". And fortunately Abba was at Goalpara. Abba hugged me and I saw tears in his eyes. I too weeped. Principal Sir, whole department as well as college was very happy. And those were possible for you, my great teachers, and ofcourse my parents support.

Having tears in my eyes, holding pen and paper, sitting quiet in my room at Guwahati. Dearest teaches, I hope I will make you proud in my future life. Infine, I solicit your heavenly blessings.

My golden days

Jimari Rabha
Batch- 2016-19

College is the most beautiful thing that we can experience in our whole life. Make sure to fully enjoy it along with studies. College days has given me numerous memories. Out of all, if there is something which I miss the most is the excursion to Sikkim.

My journey started from 2016-2019 in Goalpara College. When I took admission in UG with Botany. I was really glad. At the same time, I was really worried about the professors that how they will be, their classes and all. But time passed by, each and every professor of our department were very good to us and their regular classes were amazing. Meanwhile I met so many new friends in my college. I got lots of opportunities to learn in my college. Starting from the seminar, field trip upto educational tour they have given me so much to learn in those 3 years. Today I am glad to say that I have reached upto here just because of then. Heartily thanks to my dear friends for helping and supporting me in those 3years of journey.

Thank You

Wasmina Parveen Mimi

Batch: 2016-19

To the faculty member of Goalpara College, Department of Botany

Dr. Bhabajit Doley sir— Mimi you are a talented girl..Do you know that?? You are not a student getting 8 points.. You deserve to be a topper with 10 point.. You but you are too irregular in class??

Dr. Dulal Ch. Baruah sir—Mimi you didn't do practicals but how do you write that??

Dr. Dharmeswar Barman sir—Mimi why do you miss class??

Dr. Someswar Rao sir—Do your duty properly. Otherwise you regret a lot..

Dr. Simanta Deka sir—Mimi I expect 10 points from.. So don't miss the class..

I miss those lines so much.. All these memories make me wonder. I miss my teacher's of Goalpara College, Dept. of Botany more than the Friends of this college...

Dear Sir,

It is easy to take you for granted but it is difficult to forget your inspirational words. It is easy to misbehave in class but is difficult to overlook your motivational advice. It is easy to spot annoyance in your behavior but it is difficult to realize the patience you have while dealing with us. Thanks for overlooking our EASY's and never forgetting to do your DIFFICULT's.

Right now I am doing exactly what you have always taught me to do.. Thank you so much from bottom of my heart for making me what I am..
Sir, with your blessings now I am able to secure a seat in Bodoland University... Results are also doing well... Sir with your blessings I am topper in my class right now... Keep blessings sir and I promise you to be your pride..

The Threatened Plant and Animal Species of Goalpara District

M. Ahmed

Ex Faculty

Note: The word "Guwali" meaning Milkman, is agreed by all to be origin of the name of the District Goalpara (John M'Cosh, 1837)

INTRODUCTION-

Though forest cover removal is traced to early Palaeolithic period, the pace accelerated during Neolithic and subsequent age especially in the last 100 years history of the world has been unthought of destruction of the green mantle of the globe. Farming has been the major cause of forest destruction. The site of the earliest civilization like the Indo-gangetic plains, the Mediterranean basin, China and Mexico has seen disastrous level of forest clearance. It is widely believed that the Indus valley civilization of Mohenjodaro and Harappa is now part of the Thar, the great Indian desert (McNeely, 1994). The fertile times in 1968, Gurrett Hardin, showed the destruction of the common in his paper "The tragedy of the commons" which resulted were made on public range land in the USA during the last 200 years (Hardin, 1968).

Nineteenth of Europe in Romans time was covered by the vast Hercynian forest and clearance in the Central and Northern regions only became significant towards the end of the first millennium A.D.. However at the very beginning of the nineteenth century the army of Napoleon could march from Paris to Madrid almost entirely in the shade of trees. Something that would certainly seem impossible to the present day travelers (McNeely, 1994). The Homo sapiens first appeared on the surface of the globe about 500,000 years ago, out of the planet earth's 4.5 million years history as our hunter-gatherer started their fight for living. They also exterminated many of the animals and birds killed for food. With the quick increase in population and the extensive and clearing that characterized early agriculture further extension of plant and animals increased. The cause and shrinkage of forest in India is attributable to increase the population, increasing demand of timber, increasing number of domesticated animals, requirement of more land for agriculture. Expansion of industries and other important factors is contributed by shifting cultivation. Above 2.58 million people practice shifting cultivation in equatorial forest area of India, most of them are adivasis or tribals. Several workers have done their work in this field; Ehrlich & Ehrlich 1982. Anonymous 1994; Marak 1986; Myrthang 1981 and Sinha (1999) etc.

The Goalpara district, the great earthquake of 1897 occurred on June 12 with one of its multiple foci at Chidrang (Meghalaya) near Mendipathar measuring magnitude 8.6(+) in Richter

scale claiming hundreds of lives had affected more than 4 lakh km² of area covering North East India the then undivided Bengal and Eastern Bihar. The river course of Krishnai had also been changed in the earthquake, a part from subsidence and upheaval in different parts of the district. There are cases of enlistment of some areas and sinking of some others. Many rivers were found to have been raised and many rivers changed their course (Krishnai river). Even a forest foothill area about 40 km to the south west of Guahati sank down to give rise to the present Chan dubi lake, 90km away from Krishnai river which still bears the submerged stumps of the large trees (Richter 1989). The high rate of sediment discharge observed in the Brahmaputra subsequent to the great earthquake of the 1950 and the concomitant rise of the channel bottom indicate the impact of neo-tectonism of the rate of sediment yield from the Himalayan basins (Goswami 1982).

It is observed that the commercially important species of timbers of Goalpara district are in a very endangered stage due to frequent biotic interference, at present no good quality of sal trees are found in most of the areas. In the hilly areas the most common associates of sal in these forests are Makaria Sal, Holdu and Hill Gamari etc. Other associates of top canopy are Sida, Jia, Ahoi, Oxi, Gamari, Paroli, Titasopa, Bohera, Neuri, Jam and Koro, etc. The middle story is scanty and is made up of Amlokhi, Kum, Khakan, Titasopa, Silikha, Kathal, bhelu, Simul, etc. the most common ground species of herbs and scrubs are Corex, Coffea bengalensis, Eupatorium, Holmskioldiasaguinea, Desmodium, sp. etc. In the open area Imperata grass appears as common associates. Climber like Butea pervaflora, Entalaphaseoloides and Cissus repanda. Some occasional plants like Melleticauriculata, Ficusscardens and Bauhinia perporea. The ground cover species are Imperata cylindrica, Flemingia sp., Leucaena sp., Corex stramentita, Grewia sapida, Desmodium tripartitum, Premna herbacea and Clerodendron serratum. The plants with close canopy (without any definite annual burning) are Coffea bengalensis, Sida cordifolia, Desmodium cephalotes, Rauwolfia serpentina.

The lower slopes of foothills and the alluvial plain Sal are occupied by good quality; the associates of Sal in the top story are Makaria Sal, Oxi, Sida, Jia, Paroli, Holdu, Chama, Poma, Amora, Lali and Ahoi, etc. The ground story varies according to the canopy condition on fire regime to the vegetation. Areas subjected to annual burning and with open canopy form ground cover with like Imperata (grass) and climber, herbs and shrubs already mentioned above. In the middle hill slopes occupies extensive areas with frequent occurrence of species like Makaria Sal, Oxi, Koro, Jia, Paroli, Amlokhi, Sisoo, Bajronol, Kadam, Poma (Tun), Owtenga. Regeneration of Sal is not a problem in most of these forests, but due to lack of protection against different damaging biotic agencies, the forest has faced a great set back in its development. Teak (Tectona grandis) plant is totally vanishing from the natural forest, only visible in the new plantation areas.

During nineteenth century, the wild animals represented by elephants, rhinoceros, bison's, buffaloes, tigers, leopards, bears and deer infested in the district of Goalpara, in such large

numbers that the British offered rewards for their destruction. So, substantial was the amount spent on rewards that in the middle of the century, more money was paid in one year for killing wild animals than realized from the land revenue (Hunter 1874). For the three years ending in 1870, in the course of which an average of 116 human lives were lost yearly to wild animals and snake bites. The present denizens of the forests of the district include such animals of mammals group as elephants, inhabiting both banks of the Brahmaputra River especially near the Garo Hills (Meghalaya), whose population has to be kept under control by annual elephant catching. The other kinds of Deer more plentiful found in the District include the Hog Deer (Cervus porcinus), Barking deer (Cervus muntjac) and the Sabar (Cervus unicolor). Bisons (Bos gaurus) thrive in the district and are generally found near the hills and in the neighbourhood of the forests. Tigers, leopards and bears were found in almost every part of the District. Small animals of the District include hares, foxes, civet cats, wild cats, mongoose, jackals, monkeys, etc. Various kinds of colourful land birds, water birds and marsh birds were found in this District throughout the year. Birds include wild geese and duck, snipe, Florican (Sypheotis bengalensis), black and marsh partridge, jungle fowl (Gallus ferrugineus) and marsh peacocks, pelicans, common and button quail, snipe, etc. at the beginning of the present century (Prater 1965; Saharia 1982). Allen (1905) remarks, wild animals used at one time are numerous, but they are rapidly decreasing in numbers.

At present, the Tiger, Leopards, Hog deers and Bisons are extinct from Goalpara district, Sawam deer (Cervus axis), Common Indian monitor (Varanus bengalensis), birds like Florican (Sypheotis bengalensis), Jungle fowl (Gallus ferrugineus), Pelican and Marsh peacocks are vulnerable, wild cats, Civet cats and mongoose are extremely rare (Tikader 1983). Widespread habitat loss all over the country has diminished the population of many species, making them rare, endangered and extinct (Ehrlich & Anne 1981; Cox 1975). Many a natural range diminished in size with increasing deforestation, often confining the plant and animals to small territories. Hostile tendency towards the forests was being adopted by a large group of landless people who had been settling for cultivation. As a result, large scale illicit felling in the forests, which will hamper valuable timber plants and animals. Already few species of plants and animals, Tiger, Leopard, Hog deer, Bison and Spotted Deers have been extinct from the District. So, such unplanned denudation of forests has deprived most of these forests biodiversity (Guide 1986).

The destruction of forest undermines the basic operation of the ecosystem and may thus cause irreversible change and serious imbalance in the ecosystem. Major deforestation and habitat destruction can cause the displacement of whole communities of an ecosystem. There are some "Key species" in forest, which play vital role in the operation of forest ecosystem. These Key species may be as small as a bat or as big as an elephant. It has been estimated that on average 24 species of life in forest depends upon these Key species for their very survival in
