Message from Principal

It gives me immense pleasure to welcome you all to the lush green, eco friendly spacious campus of Goalpara College. The college has emerged as a premier higher educational institute imparting education to almost three thousand students from Assam, Meghalaya and neighbouring West Bengal. The three streams Science, Arts and Commerce with more than 17 departments are the fruit of some great freedom fighters of the region. Once liberated from the clutches of foreign rule these pioneers of western Assam took the initiative of establishing the College in 1950's. Great

values enshrined in our Constitution and visions of Gandhi and Nehru have been inspiring the College since its inception. Former principal and noted intellectual Dr. Mahendra Bora imagined the College motto 'Cross is the Crown', signifying that sacrifice and suffering bring success and achievements.

The College places premium on individual excellence. We do not expect everyone, who comes here to be at the top of their respective field, but we do expect them to put in their best. Students are encouraged to think, to act in a responsible manner and to take those bold steps that will help push the limits of intellectual curiosity have added value in terms of ideas, experience and commitment to the society and the world at large. While ideas are important the college has through its service and mission, underlined the fact that it is only through people that the ideas gain relevance, or else they remain abstract and very often sadly irrelevant. With the introduction of new education policy (NEP) in 2020, the college is gearing up to meet the requirements of college education in line with the new education policy. We constantly evaluate our students through different internal examinations and structured programme. Apart from fulfilling UGC, NAAC requirement from time to time, the college has got the Star College status by DST and the college has been getting fund from different departments including government of India's DBT schemes.

Our journey is not just about teaching the curriculum rather it is about holistic development of all our students. Our highly acclaimed faculties trained at leading universities of the country not only deliver the curriculum but also take active part in overall growth of the personality of the students. Alongside its rigorous academic standards the college maintains a vibrant tradition of co-curricular activities. Our students form and develop their academic ideas along with active engagement in the field of NSS, NCC, sports, theatre, debate, music and fine arts. The college has a state of the art infrastructure with computer laboratory, air conditioned seminar room with LCD projectors, we have a modern library with thousand of books, journal including e-journals. The library is connected with INFLIBNET. Besides, through distance and open learning thousands of students have been pursuing education up to PG level under GU IDOL and KKHSOU. Goalpara College is known for enforcing strict discipline in class room, campus and hostels. Many new initiatives have been taken up by the college authority to update its infrastructure. These include enhancing the facilities of online education through digital mode, opening of third hostel for girls, three new digital class rooms, up gradations of college field etc. In collaboration with District Administration and financial support from NEC we are working for establishing a Community Radio Station in the college campus. I am glad to announce that college has a Institutional Innovation Council (IIC) that inculcates innovative and prolific ideas among students which got due recognition from the Ministry of Education, Govt. of India. Moreover, the college has been regularly conducting Civil Services Preparatory Workshop since 2020 as a part of ongoing efforts to groom them for joining Civil Services.

I urge one and all to stay focused and connected to our goal ahead adding more laurels to the brand Goalpara College.

2.0 INTRODUCTION

Goalpara College stands as epitome of social demand for higher education of quality and aspiration of the people in general in the South-Western part of Assam.

"We must have life-building, man-making, character-making, assimilation of ideas and made them your life and character; you have more education than any man who has got by heart a whole library"-

-Swami Vivekananda.

2.1 Brief History of Goalpara College:

Amidst richness in culture, dialect and natural endowment, the visionaries mobilised the local resources to organise Goalpara College as an institution of higher learning. It was on 8th August, 1955 when Goalpara College came into existence under the principalship of Late Wajuddin Ahmed, M.Sc., B.L. This institution caters to the needs of a large number of aspiring youths of Goalpara and its neighbouring districts of Assam, West Bengal and Meghalaya. With the unstinting support and guidance of Late Khagendranath Nath, the then M.L.A. of Goalpara and Social activist, a group of benevolent and enthusiastic people dedicated themselves for establishing a college on the South bank of the Brahmaputra and because of their relentless endeavour, and indomitable spirit, ultimately, this college with Arts stream was established in Goalpara town in 1955. With the co-operation and financial help of the generous people of the locality, soon there was a permanent structure of the college building to make it a full-fledged institution of higher education. It was brought under the Deficit Grants-in-Aid system in 1962.

When the college began to receive the deficit grants-in aid from the government and got a little over the financial constraints, the enthusiastic Goalpara society undertook another bold venture of opening the Science stream in 1965. A galaxy of intellectuals, educationists, social workers and general people contributed their might and specially, personality like late Dinendra Nath Singha, Late Sisir Kr. Medhi and Late Shahadat Ali Joddar laid down their lives. Whereas Sri Binoy Krishna Ghosh and Late Prof. Lutfur Rahman sacrificed being severely wounded and became handicapped for ever for escalation of the college to full bloom. As a result the Science Stream was affiliated to Gauhati University in 1966 and was brought under the deficit grant-in-aid system 1974.

Later its Commerce stream was introduced in higher secondary as well as in degree level and both in Major and General Courses in the year 2015. All the three streams have been flourishing and attracting large number of students from various parts of the state and even from the neighbouring states and during the last academic Session i.e. 2016-17 the college enrolled around 2730 students into different courses. The college has been brought under the provisions of Assam College Employees (Provincialization) Act, 2005 with effect from December 2005.

Besides the computerized library with as many as 33,426 volumes of books, the college is enriched with a good number of journals (21) and magazines (12) of State, National and International standard along with 8 News papers, reprographic-facilities for students, researchers and faculty members. The college has also a UN/UNESCO reading Library corner. Moreover the college library has registered itself for N-LIST at INFLIB NET at Ahmedabad for e-journals and e-books.

Meanwhile the college received financial assistance from Department of Bio-technology, Government of India, for strengthening of Life Science and Bio-technology education and training facilities for students at under graduate level under Biotech Hub Scheme.

The college has two study centres of KK Handique State Open University and IDOL, GU and has already started imparting regular & vocational education in the form of different courses through distance and open learning.

3.2 Three Year Degree Course Under CBCS

The Goalpara College has decided to implement Choice Based Credit System (CBCS) as per regulations of the Under Graduate Choice Based Credit System (UG-CBCS) Gauhati University, 2019 from the Academic session 2019-2020.

What is UG-CBCS?

The undergraduate degree (UG) programme in the Choice Based Credit System (CBCS) will have courses spread across six-semester of any undergraduate degree course. Two consecutive (one odd and one even) semesters will make up an academic year. An UG course shall be of Six Semesters covering three Calendar Years (Academic Sessions – June to May). The duration of the Odd Semesters (First, Third, and Fifth) shall be June - November, and that of Even Semesters (Second, Fourth and Sixth) shall be December - May.

How does it work?

The courses in GU UG-CBCS are categorised primarily into three types of courses - Core, Elective, and Ability / Skill Enhancement courses. All the core and elective courses will comprise of six (6) credits and the skill courses are of four (4) credits.

Core Course

As the name suggests, a core course is a necessary course that a student MUST take in order to complete the degree. The number of core courses for Honours and Regular degrees are different.

Elective Course

An elective course is the one for which a student has some kind of freedom to choose from a pool of courses. There are two kinds of elective courses - Generic and Discipline Specific. The generic elective courses are those, which can be chosen by a student belonging to any stream, while the discipline specific elective courses are particular to only the discipline concerned. However, a student pursuing an honours degree course can choose a generic elective from any other discipline except from the honours course itself.

Ability / Skill Enhancement Course

An Ability or Skill Enhancement course is aimed at providing the student with skill and ability. These courses have four (4) credits each in contrast to the core or elective courses. The ability enhancement courses MUST be opted by a student and the student can choose papers from a pool of skill enhancement courses.

Dissertation / Project

A student can opt (subject to conditions) a dissertation or a project work in lieu of a 6-credit discipline specific elective course in the sixth semester.

The Notion of Credit

A student needs to earn a required number of credits in order to successfully complete a degree. The credit is closely related to the number of stipulated classes a student has to complete. The following table indicates the number of credit a student can earn for each type of indicated classes.

Class	Duration	Credit
1 Theory Class	1 Hour	1
1 Tutorial Class	1 Hour	1
1 Practical Class	2 Hours	1

Papers and Credits

The following table gives you an idea about the number of papers one MUST take in a certain degree course and the total credit it contains.

Degree	Minimum Paper Requirements	Minimum Credits
Undergrad Degree with Honours (All Disciplines)	<ul style="list-style-type: none"> ✦ 14 Core ✦ 2 Ability Enhancement ✦ 2 Skill Enhancement ✦ 4 Discipline Specific Elective ✦ 4 Generic Elective 	
Undergrad Regular Degree (Science)	<ul style="list-style-type: none"> ✦ 12 Core ✦ 2 Ability Enhancement ✦ 4 Skill Enhancement ✦ 6 Discipline Specific Elective 	
Undergrad Regular Degree (Humanities / Social Sci / Commerce)	<ul style="list-style-type: none"> ✦ 10 Core ✦ 2 Ability Enhancement ✦ 2 Skill Enhancement ✦ 8 Discipline Specific Elective 	

CREDIT AND ATTENDANCE

- Credit is to be earned by the students in full and not in fraction
- GU has set minimum 75% attendance in class as the requirement to earn full credit
- Without 75% attendance, the students will be debarred from attending the End Semester examination
- The debarred students will continue their studies till final semester
- After completion of attending the other End Semester Examinations (ESE), the debarred students will have to attend the classes to earn the required credits for the debarred semester
- Only then, they will be allowed to appear in both the Internal as well as the ESE of the debarred semester.

4.1 Higher Secondary Course:

There will be two examinations. Higher Secondary First and Final Examination will be held as per council notification.

4.2 T.D.C. Course:

Regulation of TDC for semester System & with Choice based Credit and Grading System.

1. TDC shall be of Six semester covering three Calendar Year. The Schedule for Semester system shall be as shown below:

- (a) First, Third and Fifth Semester (including examination) : August 1 - Dec 31
- (b) Second, Fourth and Sixth Semester (including examination) : January 1 - June, 30
- (c) Semester Break : July 1 - July 31

Student's performance should be monitored throughout the Semester by continuous assessment in the theory and practical courses. Evaluation of the Students performance in each of the theory and practical paper will be based on the following:

Internal Evaluation : 20% marks

External Evaluation : 80% marks

2. Internal Evaluation should be based on two Sessional examinations, home assignments, Seminars, and library work in each semester. The schedule for internal evaluation is given in Academic Calendar. The procedure for internal evaluation is given in the next chapter.

3. External Evaluation should be through a final examination at the end on the Semester. The procedure for external evaluation is given in the following chapter.

4. The Pass mark in each theory paper is 30% and that in each practical paper is 40%.

5. In each paper, student must secure pass marks in both the internal as well as the external evaluation separately.

6. A student who could not appear or failed in any Semester examination will be allowed to clear the same as follows

- (a) First Semester with the regular Third Semester examination.
- (b) Second Semester with the regular Fourth Semester examination.
- (c) Third Semester with the regular Fifth Semester examination.
- (d) Fourth Semester with the regular Sixth Semester examination.

7. A student may be allowed to "repeat" any one of the theory papers in the First, Second, Third and Forth Semester and may be allowed for "betterment" of marks in one paper in the Fifth Semester, provided the student secures less than 45% marks in that paper.

8. No "repeat" / betterment shall be allowed in the practical examination in any Semester.

9. A student must pass all this Semester examination, including "repeat" and "betterment" chances within five years from the date of admission to the First Semester course. A student will get a maximum of three chances to clear a particular Semester.

10. In case of any dispute regarding evaluation or unforeseen events the matter may be placed in the Committee of courses and Studies (G.U.) for amicable settlement.

11. Since the Semester involves continuous assessment there would be no scope for a student to appear as a private candidate in any subject.

12. For any matter not covered under this Regulation for Semester System, the existing University Rules and the Gauhati University Act 1949 (as amended till date) should be applicable.

5.0 SYLLABUS AND COURSE STRUCTURE UNDER SEMESTER SYSTEM

1. The syllabus for each paper should be divided into modules or units. Each unit should be assigned marks (Preferably equal marks for each unit) so that the question paper of the final semester examination cover the entire syllabus.
2. The minimum total marks in a graduate course should be (preferably) in between 2400-3000. Due to different nature of subjects, with practical or otherwise, the individual stream may make the final decision regarding the total marks.
3. In the Sixth semester there must be at least one paper where the students are given the opportunity to apply their knowledge. The course may be so designed that student creativity is encouraged. This could be a small academic project, an advanced level practical work including literature survey on a topic, field/survey work or any other work which may induce creativity among the students.

The students must submit two copies of project work prepared in the format of a Ph.D. or M.Phil thesis. The student will have to defend the work before an external examination and internal Board comprising of three teacher including the supervisor/guide. The external will evaluate out of 80% and the Internal Board will evaluate out of 20%.

Procedure for Internal Evaluation

1. The marks allotted for internal evaluation (20%) in each paper will be based on the following :
 - (a) Session Examination I
 - (b) Sessional Examination II
 - (c) Home Assignment, seminars and Group Discussion, or related work depending on the decision of the teacher/ college concerned. Home assignment etc., as in (c) above, may be given to the students at any time during the semester. These may be regarded as one question (out of four) in each of the sessional examination and marked accordingly. The (c) is a part of the sessional examination and the total internal marks in a-c above would be 20% of the marks allotted to the paper.
2. Each sessional examination will be of one hour duration and be conducted by the College authority of each paper. The setting of question paper, invigilation duty, evaluation of answer scripts for each paper will be the concerned teacher (s) as a part of his/her normal duty.
3. The authority concerned will fix the exact date of the sessional examination in each paper following the guidelines of academic schedule (Annexure-I). Each sessional examination will be of one hour duration and the students should write the examination in proper University answer books.
4. After evaluation the answer scripts should be shown to the students and corrections should be made if there any. After this, the answer scripts should be collected back from the students.. The entire process of evaluation of a sessional examination should not take more than two weeks from the date of examination.
5. There is no provision for re-appearing or "repeat"/ "betterment" in the sessional examination. If a student miss one or both examination for valid reason (as evidenced by medical certificate or other authentic documents) then the teacher /college concerned may allow the student to appear in a separate examination using the teachers own discretion.
6. If a paper is taught by more than one teacher then the concerned teacher should co-operate in conducting the internal evaluation. Each sessional examination for a particular paper should be one examination of one hour duration even if several teacher may be teaching the paper. However, since the contents of a paper in a semester examination is approximately half of that of a full paper in annual examination, it is strongly recommended that one paper in a semester system be taught by only one teacher.
7. At the end of the semester and before the final semester examination, the concerned teacher(s) should submit the internal marks in proper marks-shets along with the answer scripts to the C.E., G.U.
8. The affiliated colleges should submit the internal evaluation marks and the answer scripts directly to the Controller of Examination, G.U.
9. Scrutiny of the answer scripts and scaling of the internal marks may be arranged by the controller of Examination if necessary.

5.1 CREDIT & GRADING :

1. Definition of Credit :

(a) The theory paper would have one credit for each hour of instruction per week in a semester. The activities include lectures, tutorials and others for internal evaluation (seminar, group discussion, laboratory/demonstration session mini project etc.) A theory paper (which is equivalent to 100 marks of course load) should be of 6 (six) credit points which would consist of 4 hrs, of lectures 2 hrs of tutorial & other activities. A theory paper of 50 marks would have 3 (three) credit points: 2 hrs of lecture-1 hrs tutorial (& others).

For science subjects with practical one hour tutorial may be outside the office hours for home work, literature survey/internal browsing etc.

(b) Practical paper/courses would have one credit point for every 2 hrs of laboratory work per week in a semester. If the number of hrs per week is an odd number, appropriate adjustment be made it to the nearest even number for example.

(i) 3 hrs lab per day x 2 days per week = 6 hrs = 3 credits

(ii) 3 hrs lab per day x 3 days per week = 9 hrs = 4 credits

(iii) 3 hrs lab per day x 6 days per week = 18 hrs = 9 credits

If the total number of practical courses is 18 hrs per week, then 3 hrs per week be devoted as home work for preparing the report (i.e. lab book) and other activity related to practical.

(c) P.G. Dissertation by research work/projects would be of 12 credit points by 24 hrs of work per week in a semester. The dissertation would involve seminar, presentation, demonstrations, and (if required) visit to other institutions or research lab for data collection etc. About six to nine hrs of work may be allowed to such activities outside class hours and about 18 to 15 hrs of work for the laboratory work.

(d) Other type of work such as departmental seminar, field industrial training would be compulsory for the student, but no credit or marks for internal evaluation be assigned for such activities. Moreover, class attendance should not be considered for internal (or external) evaluation. Attendance including of department seminars would be treated under the University rules of minimum 75% attendance required for appearing in the examination.

2. Total Credit per semester :

Every student must complete a minimum of 30 credits per week in a semester this amounts to about 30 hrs of contact teaching per week. The total number of credit for a four semester course should be between 120-140. For a two semester or a eight semester course the total credit points may be worked out accordingly.

3. Core Course and Elective Courses :

(a) Core courses are compulsory set of papers which also include those offered for specialization in each branch of the subject, For example, the set of papers (theory & practical) offered under specialization in physical chemistry would be considered under core courses for the concerned student of physical chemistry. The total credit assigned for the core courses would be not more than 80% of the total credit. (viz, 96 credits out of 120 total credits).

(b) Elective Courses : The essence of the credit system is the freedom of choice given to the students for opting for courses/papers within and outside the department. Moreover, students mobility from one institution to another be encouraged by a credit transfer mechanism. However, the total credit points thus earned by opting for elective courses should be a minimum of 20 & of total credit (viz, 24 credits out of total of 120 credits).

(i) Student counselling by the teacher is a must to guide the students to opt for elective courses those are relevant to the concerned subject in which the student is registered for a degree.

(ii) The student may be allowed to complete the elective course at their own pace. For example, a student who wishes to opt for a courses or do his/her Dissertation/Research work in another institution, may be allowed to do so after completing other requirements in the parent institution.

(iii) Good student may be allowed to take extra load (over specified minimum 24 credits) in electives. The grade sheet/Transcripts would the extra papers as Audit Courses, but the grades obtained by the students would not be used for the calculation of GPA and CPI.

5.2 GRADING SYSTEM

(a) Conversion of marks to Grades :

Actual marks secured by a group of candidates are converted into Relative Percentile before conversion into Relative Letter Grades. The maximum Actual marks (i.e. Highest mark) (M) secured in a particular Group is converted into 100% and other actual marks (A) secured by the students of the same groups are converted to the Relative Percentile

$R = (100/M) \times A$ where R= Relative Percentile

M = Maximum (Highest marks in the class)

A = Actual marks of a student who passed

i.e. if the actual marks is not less than 30%

(b) Conversion Table for Relative Percentile into Letter Grades and Grade points

(c) Conversion of Grades of CGPA & CPI : Grade point average (GPA) is used as a numerical survey of academic achievement. First, Grades are assigned to points in a 10 points scale as follows :

A= 10 points, B= 8 points, C= 6 points, D= 4 points, E= 2 points, F= 0 points. Secondly, the hours of credit for each course are multiplied by the Grade point value to determine the honour points. The honour points are then added all the courses/papers in a Semester. The sum of honour points in a given semester is then divided by the total number of credits.

Example : Grade point average (GPA) = $480/60 = 8.0$

(3) A student who has completed a semester may be allowed to proceed to the next semester irrespective of number of paper where the student failed.

(4) In order to complete a course a student must obtain pass marks in all the papers in the semesters offered to the student in the degree course (PG or UG)

(5) A student who fails in elective papers may be allowed to replace them by other elective papers of the same credit after obtaining prior approval from the department. For this the procedure for repeating [as in (2) above] would be applicable.

(6) Students who secure the lowest grade (viz, E grade) may be given the option to repeat that paper by following the procedure for repeating [as in (2) above]

(7) Internal Evaluation : the following guidelines be followed :

(i) For every paper there should be a separate internal evaluation conducted by the teachers involved in teaching that paper.

(ii) Each teacher involved in teaching a paper would conduct a one hour written examination of (16-20% marks) some time in the middle of the semester. If seminars or group discussions are held as a part of internal evaluation, then each student should submit, which may be assigned about 4% marks (within 20%) in internal evaluation.

(iii) The mid semester examination answer scripts (with marking) should be shown to the student so that they are aware of the progress made by them in the course.

(iv) Attendance in class should not be considered for internal evaluation.
